Pretty much the same game on the wii, well, it is the same game on the wii, but it's the little things that make it cool, like in the gamecube version, Link is natural left-handed, but on the wii he is a right-handed to combine with most Americans that are right-handed. That's freaking awesome! Aren't you excited yet? How about Horseback fighting and huge boss fighting? And he now turns into a wolf!
