Desperate: The Dark Cave gives players a sense of surprise and fear when controlling the character in the dark room and constantly approaching the monsters. They do not regret their teammates, they get rid of the waves of enemy and they don't unlock valuable support objects. The name of the program is desperate: Dark Cave Editor's "Upopa Games" species is 54m the latest version of 2.8.3 mod-info.You will use your weapons and attack enemies who will present to you. In the game, you will try to save several of your teammates and score points against all kinds of enemies. Depending on your performance, you will also unlock precious objects to help you perform the task. Survive in the dark north full of monsters throughout the Hopeless experience: The Dark Cave, the players will be accompanied by a yellow silhouette which continues to flash in the black vacuum that surrounds them. He is equipped with a weapon that is used to kill enemies who appear and can also attack his friends if he is not careful. The goal is simple: survive as long as possible and find your hidden friends in the dark. An interesting but scary point that this game brings is the dark environment around the character that prevents you from seeing something other than objects approaching the character. Due to the limited view, the player must be alert and have perfectly quick reflexes to attack enemies who want to capture the character. In addition, you must press the location on the screen to shoot the enemy in front of you and start your first gaming experience. Several battle modes through Hopeless: The Dark Cave, the player enters the first mode , Hopeless, and the environment is similar to the above. Only one character appears in a single luminous field and tries to fight enemies. What is interesting is that the enemies and friends of the character can go anywhere, and sometimes you will be surprised and attack your allies. In addition, each character close to each other increases the player's level of survival. As new characters appear and remain with you in the group, survival becomes easier because the level only stops when the enemy loses all the characters you control. This will also increase their frequency and help you create impressive combos. It is also an opportunity for them to implement their plans. When the population displayed on the right side of the screen is full, most characters flee and a character will continue to save other allies. When you reach a certain level in this game, you can unlock different other modes such as survival. Instead of saving your friends from darkness, you will control three characters standing in a tower and attracting the attention of the enemy. You will try not to get lost and will not have additional teammates in this mode.Keep the items you need to unlock. You really already know how much a dark cave brings. Over time, things will help you. There are guidelines that can be unlocked based on performance, and each item works well with regard to fire, vision and other factors. At the same time, you can also buy a heavy level amp before facing enemy waves. The game is full of surprises waiting for you to find out with elements such as: the environment in the dark you always want to attack to save yourself or team members. With a limited perspective, players will try to watch it and respond to what they see instead of attacked by team members. Enemy waves occur constantly, and the level of revolution will also increase overnight to try to catch their friends. If you finish the game at the level, you will continue to unlock the new game modes. Players also have access to the necessary items to help them observe and attack their enemies. Now you can download desperate things for free: a dark cave.
