Indications are that Amazon has decided to spread the reach of its Android App Store. The Amazon Android App Store could soon be officially available in the UK, with many British-based users already claiming they can download apps from the site. The alternative to the Android Market has been a US-only venture, since its launch in March this year. Now, for the first time, Amazon users with accounts based in the UK, as well as the Netherlands, India and Australia say they have obtained applications from the service. Mystery Amazon has yet to make an official announcement, there has been no update to the Amazon UK site and users who have been successful in downloading apps have been going through Amazon.com. The official status remains somewhat of a mystery. We tried logging into Amazon.com with our UK-based account, but geographical restrictions were still in place when we tried to download apps. It's possible that Amazon is slowly making the service more widely available internationally, with more and more users being granted access as time goes on. Market contender The Amazon App Store has enjoyed a somewhat quiet first six months, despite offering free marquee apps on a daily basis. It also offers Android users the chance to test drive apps on their PC before deciding whether they'd like to download them to their handset. A widespread international launch would certainly assist Amazon's aim to gain traction and cut in on the Android Market's dominance. We've contacted Amazon for an official comment on this story, so stay tuned to TechRadar for the latest on the Amazon Android App Store's UK launch. Link: Engadget (Pocket-lint) - Facebook looks to have finally hit its user plateau in the UK and US, with growth figures slowing for the social network. For the second time in two months, the website has seen active user figures drop. The US in particular was worst hit, losing six million people throughout the month of May. Canada was in second place with 1.52 million lost. Norway, Russia and the UK all saw a drop of 100,000. Whilst these may seem like large numbers of users, they are nothing in Facebook-land; the site is approaching the 700 million mark this month. The figures do not show users that have closed down their profiles entirely, rather just those who are inactive. As such many of them could be early adopters who have now become bored or stopped using Facebook.

Experience the future of search with Huawei's Petal Search by Pocket-lint Promotion - 31 March 2022 This is a better way to browse the web, which also sees massive popularity in places like the United States and Europe, is close to extending its reach as far as it can go. Website Inside Facebook says that 50 per cent is about the maximum user threshold that the social network can achieve in any given country. This is of course affected by internet access and the rush to adopt Facebook by densely populated developing countries. In order for Facebook to reach true global status, the site is going to have to gain access to China. This however seems unlikely given the country's somewhat repressive approach to social networking. Facebook recently added 13.9 million users in April alone, this dropping to 11.8 million in May. Use Facebook? Or have you gotten bored? Writing by Hunter Skipworth. Standout Features of the Fitbit Versa Read More The Fitbit Ionic is a feature-packed wearable that provides fitness guidance, health insights, music storage, and much more. This sleek-looking timepiece comes with a 1.42" color touchscreen and features a slate blue band with a burnt orange case. In terms of fitness tracking, the Ionic offers both multi-sport functionality and traditional all-day activity tracking. Complementing these modes are the Ionic's sophisticated array of sensors, which include an optical heart rate monitor, built-in GPS, 3-axis accelerometer, altimeter, and more-all working to provide you with the most accurate health data possible. Beyond its fitness functionality, the Ionic offers plenty of everyday features, including smartphone notifications and alerts, contactless payment option, sleep monitoring, and more. If you're a Pandora user, you can even store songs locally on the Ionic and listen to them with a compatible pair of Bluetooth headphones. The Ionic is designed to be both durable and water-resistant, so you can take it in the pool, the shower, or out in the rain. Its built-in battery provides up to 10 hours of tracking in GPS mode, meaning you'll be covered even during your longest workout sessions. Large and small interchangeable bands are included with your Ionic, as well as a charging cable. Dynamic Personal Coaching Get personal coaching straight from your wrist that includes on-screen guidance and routines that change and adapt based on your feedback. PurePulse Heart Rate The Ionic utilizes PurePulse technology to deliver continuous, automatic, wrist-based heart rate data. Built-In GPS Built-in GPS lets you see precise pace, distance, and other key stats, while recording elevation climbed, split times, and even a map of your route. Store & Play Music Use Pandora with your Ionic to store and play songs on your watch. Water-Resistant The Ionic features a water-resistant design, so you can safely wear it in the pool, shower, or rain. Multi-Day Battery Get up to 10 hours of battery in GPS mode, so you can track day to night on a single full charge. Multi-Sport Modes Track specific workouts in modes like running, cycling, or lifting weights and get real-time data feedback and post-workout summaries. All-Day Activity Tracking Monitor your steps, heart rate, distance, calories burned, floors climbed, active minutes, hourly activity, and stationary time. Smartphone Notifications With the Ionic you can see call, text, and calendar notifications on screen and also get push notifications from your favorite apps. SmartTrack Use the SmartTrack features to automatically record select exercises and send your data to the Fitbit app. Payments Thanks to Ionic's integrated NFC chip, you can use your credit and debit cards anywhere that accepts contactless payments. Popular Apps Ionic supports all your favorite apps. Get instant access to important information like weather or sports, as well as many other popular applications. Syncs Wirelessly Thanks to built-in Bluetooth, the Ionic can sync stats wirelessly to any compatible computer or device. Sleep Stages & Insights See your time spent in light, deep, and REM sleep stages, and get personalized insights to help you improve. In the Box Fitbit Ionic Fitness Watch (Slate Blue/Burnt Orange) Small Band Large Band Charging Cable Limited 1-Year Warranty Table of Contents (Image credit: Fitbit) On 2nd March 2022 Fitbit (opens in new tab) issued a voluntary safety recall of the Fitbit Ionic (opens in new tab) and on 4th March it emailed users who had connected an Ionic to their account.Fitbit worked with the US Consumer Product Safety Commission (CPSC) to issue a Fast Track Recall (opens in new tab). Details on the recall revealed that the battery on the Ionic could overheat, "posing a burn hazard". There were 118 reports of burn injuries which included two reports of third-degree burns in the US.The Ionic was Fitbit's first smartwatch and launched on 1st October 2017. The watch was discontinued in 2020, having been superseded by the Fitbit Versa line and, later, the Fitbit Sense (opens in new tab). However, the Ionic continued to be sold from third-party retailers and reselling sites. The recall notice listed about one million devices sold in the US and in the region of 693,000 sold in the rest of the world. Fitbit's email and the CPSC recall directs customers to Fitbit's help page (opens in new tab) for region-specific information about the recall as well as how to claim a refund. We've pulled out some of the more salient information for you below.That's an easy one.2. You can keep using other FitbitsThe safety recall was only for the Ionic. The Fitbit help page says no other devices - smartwatches or bands - are affected.3. You won't get a replacement Fitbit IonicManufacturing ceased in 2020 - there won't be any models with new batteries so you can't get a like-for-like replacement.4. You will get a USD \$299 refundThat's the launch RRP from 2017. You need to register and, once your account is verified, will receive payment via your choice of Mastercard Debit Card or Paypal. One further wrinkle is that non-US customers are at the mercy of local exchange rates. The refund will take three to six weeks to arrive. 5. You can choose to spend the refund on a new FitbitYou're under no obligation to, but if you want a current Fitbit you will be offered 40% off up to five new Fitbits and an extra band for each. These can only be purchased through the Fitbit Ionic Discount Store (opens in new tab) and there's a 90-day time limit on the offer.6. You may need to dispose of the Fitbit Ionic yourselfIn the US, the CPSC says you will be provided with packaging to return the device. However, if you are in the UK, registering for the refund involves agreeing to dispose of the device yourself. "in accordance with local requirements for recycling or disposal of lithium-ion batteries and electronic devices". Not sure where to recycle these? Check Recycle Now to find recycling points near you and also find out how to erase data from your Fitbit (opens in new tab).

Experience the future of search with Huawei's Petal Search by Pocket-lint Promotion - 31 March 2022 This is a better way to browse the web, which also sees massive popularity in places like the United States and Europe, is close to extending its reach as far as it can go. Website Inside Facebook says that 50 per cent is about the maximum user threshold that the social network can achieve in any given country. This is of course affected by internet access and the rush to adopt Facebook by densely populated developing countries. In order for Facebook to reach true global status, the site is going to have to gain access to China. This however seems unlikely given the country's somewhat repressive approach to social networking. Facebook recently added 13.9 million users in April alone, this dropping to 11.8 million in May. Use Facebook? Or have you gotten bored? Writing by Hunter Skipworth. Standout Features of the Fitbit Versa Read More The Fitbit Ionic is a feature-packed wearable that provides fitness guidance, health insights, music storage, and much more. This sleek-looking timepiece comes with a 1.42" color touchscreen and features a slate blue band with a burnt orange case. In terms of fitness tracking, the Ionic offers both multi-sport functionality and traditional all-day activity tracking. Complementing these modes are the Ionic's sophisticated array of sensors, which include an optical heart rate monitor, built-in GPS, 3-axis accelerometer, altimeter, and more-all working to provide you with the most accurate health data possible. Beyond its fitness functionality, the Ionic offers plenty of everyday features, including smartphone notifications and alerts, contactless payment option, sleep monitoring, and more. If you're a Pandora user, you can even store songs locally on the Ionic and listen to them with a compatible pair of Bluetooth headphones. The Ionic is designed to be both durable and water-resistant, so you can take it in the pool, the shower, or out in the rain. Its built-in battery provides up to 10 hours of tracking in GPS mode, meaning you'll be covered even during your longest workout sessions. Large and small interchangeable bands are included with your Ionic, as well as a charging cable. Dynamic Personal Coaching Get personal coaching straight from your wrist that includes on-screen guidance and routines that change and adapt based on your feedback. PurePulse Heart Rate The Ionic utilizes PurePulse technology to deliver continuous, automatic, wrist-based heart rate data. Built-In GPS Built-in GPS lets you see precise pace, distance, and other key stats, while recording elevation climbed, split times, and even a map of your route. Store & Play Music Use Pandora with your Ionic to store and play songs on your watch. Water-Resistant The Ionic features a water-resistant design, so you can safely wear it in the pool, shower, or rain. Multi-Day Battery Get up to 10 hours of battery in GPS mode, so you can track day to night on a single full charge. Multi-Sport Modes Track specific workouts in modes like running, cycling, or lifting weights and get real-time data feedback and post-workout summaries. All-Day Activity Tracking Monitor your steps, heart rate, distance, calories burned, floors climbed, active minutes, hourly activity, and stationary time. Smartphone Notifications With the Ionic you can see call, text, and calendar notifications on screen and also get push notifications from your favorite apps. SmartTrack Use the SmartTrack features to automatically record select exercises and send your data to the Fitbit app. Payments Thanks to Ionic's integrated NFC chip, you can use your credit and debit cards anywhere that accepts contactless payments. Popular Apps Ionic supports all your favorite apps. Get instant access to important information like weather or sports, as well as many other popular applications. Syncs Wirelessly Thanks to built-in Bluetooth, the Ionic can sync stats wirelessly to any compatible computer or device. Sleep Stages & Insights See your time spent in light, deep, and REM sleep stages, and get personalized insights to help you improve. In the Box Fitbit Ionic Fitness Watch (Slate Blue/Burnt Orange) Small Band Large Band Charging Cable Limited 1-Year Warranty Table of Contents (Image credit: Fitbit) On 2nd March 2022 Fitbit (opens in new tab) issued a voluntary safety recall of the Fitbit Ionic (opens in new tab) and on 4th March it emailed users who had connected an Ionic to their account.Fitbit worked with the US Consumer Product Safety Commission (CPSC) to issue a Fast Track Recall (opens in new tab). Details on the recall revealed that the battery on the Ionic could overheat, "posing a burn hazard". There were 118 reports of burn injuries which included two reports of third-degree burns in the US.The Ionic was Fitbit's first smartwatch and launched on 1st October 2017. The watch was discontinued in 2020, having been superseded by the Fitbit Versa line and, later, the Fitbit Sense (opens in new tab). However, the Ionic continued to be sold from third-party retailers and reselling sites. The recall notice listed about one million devices sold in the US and in the region of 693,000 sold in the rest of the world. Fitbit's email and the CPSC recall directs customers to Fitbit's help page (opens in new tab) for region-specific information about the recall as well as how to claim a refund. We've pulled out some of the more salient information for you below.That's an easy one.2. You can keep using other FitbitsThe safety recall was only for the Ionic. The Fitbit help page says no other devices - smartwatches or bands - are affected.3. You won't get a replacement Fitbit IonicManufacturing ceased in 2020 - there won't be any models with new batteries so you can't get a like-for-like replacement.4. You will get a USD \$299 refundThat's the launch RRP from 2017. You need to register and, once your account is verified, will receive payment via your choice of Mastercard Debit Card or Paypal. One further wrinkle is that non-US customers are at the mercy of local exchange rates. The refund will take three to six weeks to arrive. 5. You can choose to spend the refund on a new FitbitYou're under no obligation to, but if you want a current Fitbit you will be offered 40% off up to five new Fitbits and an extra band for each. These can only be purchased through the Fitbit Ionic Discount Store (opens in new tab) and there's a 90-day time limit on the offer.6. You may need to dispose of the Fitbit Ionic yourselfIn the US, the CPSC says you will be provided with packaging to return the device. However, if you are in the UK, registering for the refund involves agreeing to dispose of the device yourself. "in accordance with local requirements for recycling or disposal of lithium-ion batteries and electronic devices". Not sure where to recycle these? Check Recycle Now to find recycling points near you and also find out how to erase data from your Fitbit (opens in new tab).
